E ACERCAMIENTO.....

Ora cu bo acerca un cruzada, kita bo pia for di e pedal di gasolin y poné ariba e pedal di breek. Esaki lo duna bo e extra fraccion di seconde di tempo di reaccion, si en caso bo por tin mester di dje. Na un cruzada, mira promer pa robez y despues pa drechi. Tráfico cu ta bini di banda robez ta mas cerca di bo vehículo y lo cruza bo paso promer.

THE APPROACH.....

As you approach an intersection, have your foot off the accelerator and on the brake pedal. This will give you that extra split-second of reaction time, just in case you happen to need it. At an intersection, look first to the left and then to the right. Traffic from the left is closest to your vehicle and will cross your path first.
